

Recycling is Required

California Regulations (AB 341 & AB 1826) Require that Commercial Businesses and qualifying Multi-Family Buildings must sort Recyclables and Organic materials out of their garbage.

The purpose of the recycling regulations is to reduce the amount of **recyclable** and **compostable** waste materials that are being deposited in landfills.

For more information about the Commercial Recycling Regulations: www.calrecycle.ca.gov/recycle/.

Does a landscaper offhaul your yard trimmings? We want to hear from you!

AB 1826 requires landscapers who provide green waste services to covered businesses to verify that the green waste/yard trimmings collected are taken to a facility that composts it. For more information and a form you can use to verify your compliance, visit: <https://www.milpitassanitation.com/multifamily/recycle/>.

CURRENT AB 1826 REQUIREMENTS

If you generate:

you are required to have an organics recycling program in place.

*Solid Waste = Garbage & Recycling.
